

Seminar organized by DevB on skyrise greenery on 2 December 2010

Theme: Experience sharing on design, construction and recent researches

Topic: Greening in urban renewal projects

Synopsis: Greening is one of the important environmental provisions in the redevelopment projects of the Urban Renewal Authority. In each project, every possible opportunity for greening will be explored. Experience will be shared on those opportunities and also the constraints encountered.

CV of speaker:

Mr. Daniel Ho

Fellow member of the Hong Kong Institute of Surveyors

General Manager of Urban Renewal Authority (URA)
