

Bridelia tomentosa
土蜜樹, 逼迫仔

Recommended Street Types

A¹/₂ B¹/₂ C¹/₂ D¹/₂ E¹/₂ F¹/₂ G¹/₂

General Information

Native Exotic Evergreen Deciduous Partial Shade Full Sun

Family: EUPHORBIACEAE

Heat Tolerance: Moderate

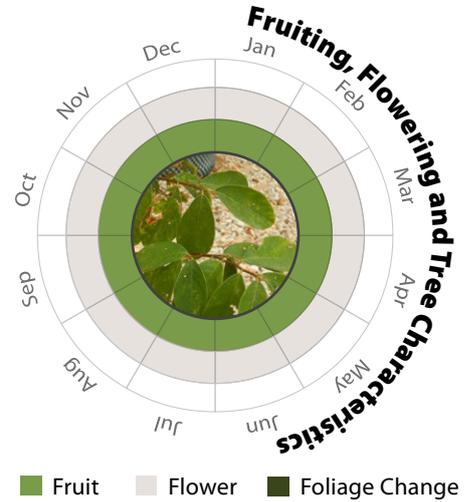

Special Properties : Fruits, seeds and leaves attractive to wildlife

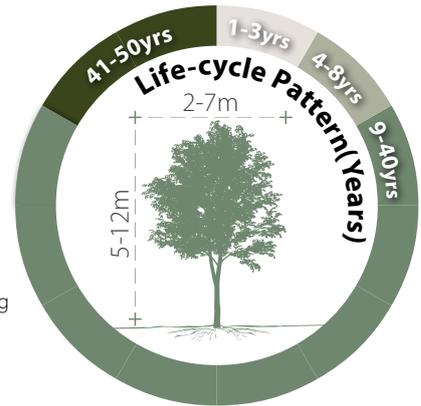

Flowers

Fruits

- Propagation to Seedling
- Sapling to Semi-mature
- Mature
- Senescence

Feature

Ecological Value H M L Ornamental H M L Shade Cast H M L

Special Maintenance Requirements

- Shrubby form may require formative pruning
- Moderate maintenance manageability

Tolerance

<p>Drought</p> <p>Low Moderate High</p>	<p>Roadside Pollution</p> <p>Low Moderate High</p>	<p>Soil Compaction</p> <p>Low Moderate High</p>
